Comments from the Organizer and Exhibitors

China's rapid economic development causing energy demanding, labour shortage and rapid wage rise issues prompt innovation, precision, automation and energy saving equipment highlighted at this year's DMP. World-renowned precision and automation manufacturers have showcased their latest technology at DMP. Visitors found these precision and automation technology impressive. Over 70% of the exhibits here are target on energy saving to cope with the trend and tight electricity supply in China.

DP2011 was crowded with visitors and most exhibitors were satisfied with the result of the show. Buyers increased by 5.5% while the total booth area increased by 40%.

Japanese exhibitors, like Fanuc revealed that DMP 2011 is excellent and are very satisfied with the result and have requested to book for booth space next year. Overseas visitors and visitors from other provinces have increased a lot this year.
